

The graph consists of 15 nodes, each represented by a colored circle with a numerical label. The nodes are connected by a dense network of edges, many of which are overlapping or crossing. The nodes and their labels are as follows:

- Red nodes: -2.1, -1.8, -2.4, -3.6, -3.9, -2.6, -3, -2, -2.1, -3.2, -2.4, -2, -2.5, -1.9.
- Blue nodes: 2.1, 1.8, 3.7, 3.6.

The edges are represented by thin black lines, forming a complex web of connections between the nodes. The overall structure is highly interconnected, with many overlapping and crossing edges.
